Date: _____

trusses, and second-floor framing or truss specifications, which will also detail joists, beams and/or trusses for the second-floor.

- A complete elevation plan. The elevation plans must show the percent of exterior vertical surface that will be glass, doors, masonry or other materials, the elevation above finished slab to the highest ridge-line (roof height), detail the roof materials to be used, show the location and detail of roof vents and other penetrations (roof vents will be as unobtrusive as possible and low profile ventilators will be used and when ever possible roof vents should not be visible from the front of the house).

- ✓ Show chimney cap renderings

- A site plan, at a scale no less than 1" = 10' on a 24" x 36" or a 30" x 42" sheet or at such other scale and size as the Architectural Board may approve from time to time showing the following:

- ✓ Location and area of the building site
 - ✓ Location and area of residence
 - ✓ Location of all other proposed improvements
 - ✓ Distances from any proposed structures or improvements to the nearest lot lines, building setback lines, easements, and/or any existing structures, driveways, parking areas, patios, pools, walls, fences, and utility services.
 - ✓ Location of topographic and vegetative features of the site including:

- ✓ Location of silt and construction fencing

1. Any proposed site grading (cut or fill)
2. Topographic features such as washes or rock outcroppings
3. Locations of existing protected trees, including identification of every tree with a diameter of 26 inches or more at a height of 4-feet 6-inches above existing grade
4. Other major plants to be retained or removed,

Initial: _____

Date: _____

5. Elevation of all building floors, roof peaks, patios, and terraces, shown in relation to the site contour elevations.

- ✓ Location of portable toilet and trash dumpster
- ✓ Location, height and materials of all retaining walls
- ✓ Location and direction of all the anticipated overall drainage of the lot once the improvements are in place
- ✓ Location of existing trees
- ✓ Location of the construction entrance for the building site
- ✓ Standard Rough Hollow site plan notes as required by the Rough Hollow AC guidelines

Exterior lighting plan and lighting fixture details, including yard light and dimensions to the street

Driveway dimensions and materials & sidewalk dimensions (4x4x2)

Air conditioning location and screening

Tagging of all trees/plants that are to be saved, moved or cut.

Notification of any changes required by the review process of the local Governing Authority.

The owner's name, address and phone number, the Architect's name, address and phone number, the Builder's name address, and office number and job-site phone number, and contact information for any other contractor who will be retained for the work.

Both the Owner and its Builder shall execute and deliver their notarized Statements of Intent to Comply with the Design Guidelines.
